## Robot Revolution

For each video, decide if the video views automation as a threat or not, and summarize the content

### Will a Robot Take My Job?

- This video feels that automation is (Check One)

A Threat	Not a Threat
	✓

- The Main Points this video makes about automation are:

- AI can fill in where humans lack like trucking
- new technology won't take away, it will give new opportunities
- Machines lack many human qualities like common sense

### The Big Debate About the Future of Work, Explained

- This video feels that automation is (Check One)

A Threat	Not a Threat
	✓

- The Main Points this video makes about automation are:

- Even though automation takes over jobs, it creates better, safer ones
- More jobs are created by higher production
- automation isn't coming as fast as we think it was going to

### These Revolutionary Robots Are About To Steal Your Job

- This video feels that automation is (Check One)

A Threat	Not a Threat
✓	

- The Main Points this video makes about automation are:

- machines are already taking over your job
- new technology creates new jobs as they take them, except for robots
- it will make our lives much easier
